Objective

Enthusiastic Computer Science Engineering student skilled in Python, Java, and data-driven problem solving. Eager to leverage strong analytical skills, algorithmic thinking, and machine learning concepts to derive actionable insights, solve complex business problems, and build impactful real-world applications

Education

B.E. in Computer Science: School of Computer Engineering, Alva's Institute of Engineering and Technology - CGPA: 7.81 (Pursuing)
PUC: Jain Junior College, Moodubidri, Karnataka - 89.33% 2021-2023
SSLC: Blossom English Medium School, Belvai, Karnataka - 94.56% 2021

Projects

College Connect *Tech Stack: Node.js, Express.js, MongoDB, React*

Repository: github.com/virajj12/College-Connect

Developed a centralized platform for academic notifications featuring JWT-secured role-based access control for faculty to manage announcements. Built a dynamic, filterable feed using React to seamlessly track curriculum updates.

Habit Tracker Pro *Tech Stack: React, Node.js, MongoDB, Tailwind CSS*

Repository: github.com/virajj12/habit-tracker-pro

Engineered a full-stack management platform with secure user authentication and role-based database models. Leveraged dynamic data visualization utilizing custom React heatmap components to track and analyze daily user logs.

SecureVault *Tech Stack: Python, Streamlit, SQLite, Cryptography*

Repository: github.com/virajj12/securevault

Built a security platform implementing AES-256 encryption and a comprehensive real-time audit trail. Implemented innovative blind indexing with HMAC trapdoors, enabling efficient database searches without ever exposing plaintext data.

Smart Hotel Monitoring System *Tech Stack: Python, FastAPI, YOLO, OpenCV*

Repository: github.com/vinith-0430/Smart-hotel-monitoring-system

Utilized computer vision (YOLO) to monitor kitchen hygiene in real-time, automatically identifying pests and dress code violations. Triggered threaded SMTP email alerts with snapshot evidence to management.

Technical Skills & Certifications

- **Core Technologies:** Java, React.js, JavaScript, Python, C, HTML5, CSS3
- **Databases & Cloud:** SQL, MongoDB, SQLite, Firebase, Vercel
- **Web, Integration & Data Engineering:** Node.js, FastAPI, Streamlit, Pandas, NumPy
- **Certifications:** Infosys Springboard - Associate in IT Foundation Skills (Java), DSA, DBMS, NoSQL

Extracurricular Activities

- **Promotion Team Lead, Xypheria (National Level Hackathon):** Spearheaded digital promotion, driving over 100,000 dashboard views and maximizing event participation through data-driven strategies, demonstrating strong commitment to deliverables.
- **Video Editor & Social Media Team, TEDx AIET:** Collaborated with a multidisciplinary team to produce engaging promotional content, amplifying the event's digital footprint and showcasing strong presentation and communication skills.
- **Event Branding & Digital Promotion:** Directed social media strategy and designed high-quality visual assets for major college events, highlighting adaptability and a willingness to go the extra mile.
